

The ISB Advantage

Leaders and organisations today must continually reinvent themselves to navigate complex disruptive environments and create and renew their competitive advantage over time.

ISB Executive Education empowers executives with the skills, mindsets and vibrant networks required to manage and lead in this new world and achieve their distinctive personal and professional goals.

Future-Ready Perspectives

ISB Executive Education programmes speak to the new and continually evolving realities of modern work and businesses, including heightened connectivity, lower barriers to entry and scale, unprecedented automation, and shifting demographics. Our learning interventions will help you discover organisational "unlocks" and create future-ready companies that are aware, nimble, and continually learning and innovating to thrive in the next normal.

Globally Renowned Faculty

ISB faculty includes leading academics with strong domain expertise that draws on extensive research, real-world engagements, and rich teaching experience in top global business schools. The faculty also includes accomplished industry practitioners, who have been at the helm of global businesses. These experts will challenge your existing way of thinking, broaden your horizons to include new perspectives on complex problems and their solutions, and empower you to effect innovative ideas and change in your organisations.

Research-Backed Thought Leadership

ISB is ranked #1 amongst all business schools in India for research. At our research centres and institutes, faculty collaborate with top minds in industry and government to develop groundbreaking thought leadership. Participants and their learning journeys will benefit from this rich expertise and its applications in the classroom through novel instructional content and assessments, extensive coaching, and a diverse selection of cases studies.

Deep Expertise in Emerging Markets

Emerging economies in the East and South are slated to grow twice as fast as the more established, advanced economies in North America, Western Europe and Japan. Asia is at the centre of this growth story, with India and China poised to contribute 50% of global economic output by 2050. Immense opportunities await companies who can navigate the unique and formidable challenges of these markets. Unlike most leading global business schools, ISB has developed rigorous intellectual capital and a vast number of case studies that explore critical challenges facing the organisations and leaders in these markets. Further, embeddedness in a rich ecosystem of business, government and think tanks allow ISB to deliver practical knowledge and craft holistic learning experiences to both local and global companies looking to compete and succeed in emerging markets.

Transformational Learning Experience

ISB Executive Education programmes are replete with distinctive teaching methodologies and an intense and challenging learning environment that pushes participants' learning horizons beyond their pre-existing beliefs. Through lectures from distinguished faculty, local and global case studies, business simulations, and group discussions with extraordinary peers from a broad range of industries, regions, and functions, you will be equipped with the strategies, tools and insights required to transform your thinking and achieve ambitious business objectives. You will return to your organisation, fully ready to apply what you have learned. You will also take with you a rich network of relationships that will enrich your personal and professional lives long after you complete the programme.

Learning Solutions for Enterprises

ISB Executive Education partners with organisations to design and deliver learning solutions that address specific challenges to meet strategic business objectives and distinct learning needs. Our programmes are based on a holistic, evolving understanding of an enterprise's context as well as participants' strengths and potential.

We offer programmes to meet the development needs of individuals and small teams, and custom solutions for cohorts from within the same organisation. All custom solutions can be delivered via various formats including live virtual, classroom or on-site, online or asynchronous, and elaborately blended formats that provide the learning experience best suited to your organisation. The curriculum across all formats is similar but tailored to achieve maximum impact from each delivery format.

Shift business models

Execute high-stakes strategic initiatives

Drive growth through digital transformation and innovation

Shift mindsets and cultures

Orchestrate and manage change in the organisation

Professionalise management practices

Retain key talent

Create organisational environments that motivate and drive excellence
